

Prompt Utils

Desktop utility to bundle selected files/directories into an AI-friendly format and copy to clipboard.

What it does

- Select files and/or directories
- Builds a tree summary
- Concatenates contents with clear file boundaries (Markdown + code fences)
- Skips binaries and large files
- Optional ignores (default ignores + `.gitignore` support)
- Preview + Copy to clipboard

Requirements

- Python 3.10+
- Platforms:
 - Linux (tested on Ubuntu 22.04)
 - Windows (tested on W11)
 - macOS

Run locally (from source)

Linux (Ubuntu) / macOS

```
python3 -m venv .venv
source .venv/bin/activate

python -m pip install --upgrade pip
pip install -e .
python -m prompt_utils_app
```

Windows

```
py -m venv .venv
.\.venv\Scripts\python -m pip install --upgrade pip
.\.venv\Scripts\pip install -e .
.\.venv\Scripts\python -m prompt_utils_app
```

Tip: run without a console window:

```
..\venv\Scripts\pythonw -m prompt_utils_app
```

Using the app

1. Click **Add files...** and/or **Add directory...**
 2. Toggle options (tree, contents, ignore behavior, max size)
 3. Click **Build preview**
 4. Click **Copy to clipboard**
-

Development

Install dev tools (lint + tests):

```
pip install -e ".[dev]"
```

Run lint:

```
ruff check .
```

Run tests:

```
pytest -q
```

Roadmap

- Sensitive info detection + masking
- Prompt history (SQLite)
- Prompt templates with placeholders
- Packaging (PyInstaller) + installers
